PRINCIPALS' MESSAGE SPRING / SUMMER 2021

Dear Escondido Community Members:

Our spring semester is finally here and hopefully we will soon move on from the challenging times we have all been experiencing. We would like to thank our students and our dedicated Escondido Adult School (EAS) instructors for engaging in distance learning and for connecting with each other and continuing to learn during this unprecedented pandemic.

EAS has been an integral part of the Escondido community for more than 50 years. During our long history, thousands of adult learners have created a better life for themselves and their families by continuing their education with us. Adult learners come to EAS to improve their English, graduate from high school, study for their HiSET or GED exams, prepare for U.S. citizenship, train for a new career, or improve personal and academic skills. Our school provides the opportunity for all our adult learners to experience life-changing success. Since we first opened our doors in 1968, our first priority has been helping every EAS student reach his/her educational, career, and personal goals.

EAS is a proud member of the Education to Career Network (ETCN), and the California Council for Adult Education (CCAIE), as well as a Western Association of School and Colleges (WASC) accredited adult school. We work closely with our students to connect them to professional externships or post-secondary opportunities at Palomar College. Through our affiliation with these respected associations and our dedicated community partners, we can assure you that EAS will continue to offer our students high quality learning experiences based on industry standards and the best practices in adult education.

We take great pride in being the Co-Principals of Escondido Adult School and we are thrilled to be working in this vibrant learning community. If you need further information, please feel free to call us at (760) 737-8000, or check out our website at www.escondidoadultschool.org.

We look forward to meeting you and serving your needs soon.

Sincerely,
Stacey Adame and Tom Allison

Under Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990 as amended by the ADA Amendments Act of 2008, the Escondido Union High School District Adult School shall take all necessary steps to ensure that no student with a verified disability is denied the benefits of, excluded from participation in, or otherwise subjected to discrimination in an education program because of the absence of academic accommodations or auxiliary aids and services.

1. An adult student with a verified disability may be entitled to accommodations or auxiliary aids and services. The decision for the authorization of such accommodation is the responsibility of the Adult School Section 504 Committee after a review of documentation verifying the disability and any resulting educational limitations.
2. It is the responsibility of the student to file a written request for accommodation or auxiliary aids and services with the Principal or Assistant Principal of the Adult School. The request should be made on the Adult School form entitled "Request for Services/Accommodations" which may be obtained by contacting the principal, Brian Head, 760-737-8003. The student should provide documentation, such as medical, psychological or educational assessments of the impairment and functional limitation. The request should be submitted with adequate notice provided for an effective response.
3. The request will be reviewed by the Section 504 Committee. The Committee will promptly evaluate the request and make a determination about accommodations or auxiliary aids and services. Within 7 calendar days of all receipt of all required documents, the Committee will make a determination which will be communicated in writing to the student.
4. The Principal or Assistant Principal of the Adult School will be responsible for providing written notice of the approved accommodations or services to the student's instructors within 3 calendar days of the determination of the Committee.
5. If a student disagrees with the initial determination by the Committee, including a determination about the adequacy of documentation required to support an accommodation or auxiliary aids and services, or has other disputes about the provision of accommodations or services, the student may schedule a review meeting with the assistant principal to be held within 5 calendar days of the determination or other disputed action. If the issue is not resolved within 5 calendar days of the review meeting, the student may file a complaint through the District's Uniform Complaint Procedure described below. This review meeting is optional and the student may choose to directly file a complaint through the District's Uniform Complaint Procedure.
